I feel extremely honoured and blessed to have been a part of JISCE and a student of the ECE Department. I am indebted to the impactful faculty members who would clarify all my doubts and encourage me. This college has all the facilities, silent learner coach's who possibly doesn't. They're the reason I got the job opportunities and not one, but two leading companies - TCS and Capgemini and also an opportunity for International Internship at Asian Institute of Technology, Bangkok. It is truly a life changing experience for me to be a part of this college.

ECE Department in JISCE is surely one of the best in terms of facilities, laboratories and other facilities. From the very beginning, faculties guided us in every way possible and helped in our overall growth. The trainings, seminars and workshops conducted by this college has made us future ready. I would like to thank everyone for their immense support in this journey.

There have been two job offers from Capgemini and TCS. The college provides great campus placements and great job are offered. The infrastructure of our college is great. The college provides smart classroom, Wi-Fi campus, canteen with reasonable price. The library is stocked with a lot of journals, books & magazines. Faculty members in my department are good knowledge and always help students. The curriculum is a mix of theory and practical, which makes students industry ready and makes students adapt and evolve through any point of business changes.

I have been received two job offers from Capgemini and Cognizant Tech Solutions. Both offered for ECE students are Software Developer, Associate and many more. Our college provides a high speed internet facility. The entire campus is Wi-Fi enabled. We have well lab with all updated infrastructure. Our college has introduced the Flip Learning concept which is the most innovative and efficient way of learning. The library is well equipped with books available throughout the semester. Teaching quality in my department is very good and teachers are available beyond college hours as well which makes it even easier for students to clarify their doubts. But recent curriculum is relevant.

Our Student Our Pride

**Department of
Electronics and Communication
Engineering**

It was my immense luck and fortune to be the part of JIS College of Engineering, Kalpal, where I am growing. The entire faculty of my Electronics and Communication Engineering department have co-actively worked to shape our future. My four years at JIS have been a wonderful experience of learning with profile experts.

I am thankful to the faculty and staff for parting me with all the knowledge and guidance. ECE department has been a family to us for 4 years and has made us capable of living in this world with our heads held high.

I, Komal Anubhuti, student of Electronics and Communication department from the "JIS College of Engineering, Kalpal". The college is good in most of the perspective. College campus is spacious and well furnished. Teachers are very helpful and cooperative. It organizes many co-curricular activities like sports, Women's day program, Robotics Japan program etc. College organizes many training skills also that is free of cost. Thank you.

Department of ECE at JIS College of Engineering has provided me the right path. I will never forget that Mr. Madan has been my supervisor and loved me so much for my success. I selected a position initially in almost every end of companies at various interviews and I had time off the. So Madan of the ECE department were guiding me to overcome. Then I finally got a job at BLISS FM 98.3 LIFE company on February 20th. Finally I would like to say that will be very grateful to ECE department for this way it has guided me in the right path.

I have been successful after four years. The college provided good placement and great value to my effort. It gives me more in ECE students have been placed in good of the company. The effectiveness of our college is good. The college provides career counselling, seminars, sessions with measurable goals. The way to succeed with a lot of practice. As a student, faculty members in my department are good, knowledgeable and always help students. Thanks to my department in my good and position are available beyond college from now with which makes a good career for students and really their dreams. The way to success is through.

By 4 years at JISCE have been a wonderful experience of learning and exposure to the outside world. The infrastructure of JISCE is one of the best in the state with well equipped lab and resources. The faculty members of our department ECE were always more than happy to help in every possible way. So projects, seminar, workshop, huge support, love and devotion for the faculty members. I have met some of the best people in ECE and made memorable memories with them by friends.

Testimonials of ECE Alumni

It's always a great experience that I have pursued my Bachelors Degree from this esteemed organization. The facilities we are being provided in our college is always helpful for our career growth. The teaching and learning platform with introduction new FLIP LEARNING encouraged the students to learn and gain more. Good equipped lab and experienced faculties helped us a lot throughout our 4 year journey. At last, not least I would thank my Department as well as management to provide us a better platform for growth and learning.

ALMY DEY SARKAR (2015-2019)

KASURA TECHNOLOGIES

Right from the beginning of my engineering life JISCE played a major role in making and shaping my career. Teachings, lessons, and technology oriented skills that I grasped here really helped me to start my professional carrier as Software Engineer in IBS Software. I feel lucky to be a part of the Educational tour in Asian Institute of Technology, Bangkok, where I have gained knowledge of cutting edge technologies. I would like to thank each and every faculty and everyone associated with JISCE for their immense support at all stages of my B Tech journey in ECE.

ASLAM HOSSAIN MOLLA (2015-2019)

IBS Software

The memories from 2015 to 2019 will be really etched in my mind forever. There were several ups and downs in this journey but the teachers were very encouraging and supporting. I (Snehakshi Singh) student of ECE department feel privileged to get such amazing teachers who has filled my head with knowledge, yet they have also filled my heart with the love of learning. I will forever be indebted to this college and this department. I am placed in Cognizant, Kolkata.

Snehakshi Singh (2015-2019)

Cognizant, Kolkata **Cognizant**

ECE department not only helps you to build your career, but also helps you to become a good person in your real life with good attitude towards society and well being of the people.

SUBHRA DAS

CAPGEMINI

I feel fortunate enough to be a part of the Electronics and Communication Engineering Department in JIs college of engineering as I have received constant support and help from all the teachers wherever in any doubt. My teachers have always been great part of my academic life and they have been a constant encouragement in my development a human being.

SHRADHA ROY

CAPGEMINI Capgemini

The teachers of our ECE department is very helpful in the overall growth of the students. Not only it gives academic support but it also train the students to be familiar with the real life problems as well. The credit of our career growth simply goes to our teachers.

SUKRITI SARKAR, (2015-2019)

NETCONNECT GLOBAL PRIVATE LTD. 

I am very grateful to all my teachers of my department of Electronics and Communication Engineering for always supporting me and guide me to the right path. I place my gratitude to them for always being there for always being there in my moments of indecisiveness. A hearty thanks to the department for there generous help.
