

Report

Event/Workshop/FDP/Program/Activity Name: Industry Visit for Collaboration, Suntools, Howrah

Date: 20/06/2022

Convener or Coordinator Name: Dr. Biswarup Neogi

About the Program:

We visited Suntools, a leading company specializing in CNC technology and manufacturing solutions. The visit aimed to deepen our understanding of Computer Numerical Control (CNC) technology, with a focus on exploring the various types of CNC routers. During the visit, we witnessed Suntools' cutting-edge CNC machines in action. The experts demonstrated the intricacies of CNC technology and its applications in diverse industries. The hands-on experience and interactions with industry professionals left us with a profound appreciation for the precision and potential of CNC technology.

Additionally, discussions about potential collaborations with Suntools for research and development projects opened exciting opportunities for real-world engagement and innovation. We are grateful to Suntools for their hospitality and valuable insights, which have broadened our horizons and inspired us to explore new frontiers in the world of advanced manufacturing.
